## SEA WATER SPRAYS FOR DAILY NASAL HYGIENE

**MERMAID®**

Mermaid Sprays  
Keeping Nasal Hygiene

## Natural safe and effective nasal sprays for all the family - Make Breathing Easier

**MERMAID<sup>®</sup> nasal spray**, intended to **keep nasal hygiene, clean and moisturize** nasal passages in states of colds, allergic rhinitis or blocked nose.

**MERMAID<sup>®</sup>** products are most useful tool that instantly **make breathing more comfortable**.

**MERMAID<sup>®</sup>** nasal line of sprays **suits all the family in complete safety**.

Composed of **natural sea water rich with trace elements**.

**MERMAID<sup>®</sup> spray** is a nasal physiological sea water spray. It is a **natural product** and thanks to its 97 mineral and trace elements, it is a therapeutic alternative to vasoconstrictors and other nasal decongestants with side effects.

**MERMAID<sup>®</sup> spray** contains all **marine trace elements** (Ag, Zn, Cu, Mn...). Trace elements have an essential function for human organism: as catalysts, they are necessary to any biochemical function. Several studies about trace elements show that they act on metabolic regulation mechanism and on functional troubles by optimizing organism natural defense.

**MERMAID<sup>®</sup> spray micro-spray system** allows a gentle diffusion in micro-drops which cover the nasal mucous membrane optimizing the penetration of the solution. This micro-diffusion avoids the projection of mucus in the back of the throat and consequently the contamination of the ENT sphere.

**MERMAID<sup>®</sup> spray** nozzle is the **newest and most advanced** nozzle adapted to any nostrils size and is auto-blocking (very important for babies).

**MERMAID<sup>®</sup> Baby** – is a spray with reduced pressure fits to the gentle tissues of the newborn. The efficiency of the spray for babies, children and adults has been proved by several clinical studies.

**MERMAID<sup>®</sup> spray** has **high safety profile** and can be used by **all the family**.
