## OTICGUARD BABY First Aid in common ear problems

The external ear canal is an orifice, which due to its typical structure it subject to infection caused by trapped water, or foreign body in the ear. These common phenomena can cause ear discomfort, pain, ear itch, infection, allergy and even hear loss.

**OticGuard Baby** is a mixture of herbal oils known for its therapeutic beneficial effects intended to prevent and alleviate common ear problems. **OticGuard Baby** assists in ear pain, ear infection and ear irritation.

**Ingredients:** Oleum Europa, Sesamum Indicum (Sesame) Oil, Saw Palmeto Extract, Phytosterol Complex, Bisabolol, Murraya Koenigii Leaf Oil, Cinnamomum Zeylanicum Leaf Oil, Sea Whip Extract, Spearmint oil.

**Indication:** For use in ear irritation, ear infection & pain.  
Suitable for children and babies over 6 month.

## CLEANEARS BABY Earwax Removal System

Ear wax or cerumen is a normal secretion of the glands in the ear. Excessive wax may cause a number of unwanted effects including hearing loss, discomfort, pain and coughing.

**CleanEars Baby** is an effective safe & natural spray intended to dissolve and wash away accumulated ear wax.

**CleanEars Baby** combines a mechanical wash compound with the safety and efficacy of natural olive oil. Using **CleanEars Baby** earwax is dissolved and gradually removed from the ear by using a natural ear cleaning mechanism and perfect dispersion in the ear canal.

**Ingredients:** Olive Oil, Phytosqualan, Spearmint Oil.

**Indication:** For the dissolution and removal of ear wax in the external ear canal.  
Suitable for children and babies over 6 month.

## DRY EARS BABY

**Removal of water or moist in the external ear canal after swimming or showering • Prevention of Otitis Externa.**

**DryEars Baby** is an ear water-removal and drying aid, designed to relieve the unpleasant symptoms and potentially harmful effects of trapped ear-water. It is a gentle ear spray that dries the ear canal within seconds after application preventing development of external ear infection (Otitis externa).

**DryEars Baby** works due to its powerful surface-tension reducing the specific gravity of the trapped water allowing its quick evaporation out of the ear canal.

**Indication:** Prevention of Otitis Externa.

Suitable for children and babies over 6 month.
